Hot off the laser

- Don't put a question mark where God put a period.
- Talking is sharing, but listening is caring.
- Love sees through a telescope, not a microscope.

During my brother's wedding, my mother managed to keep from crying until she glanced at my grandparents. My grandmother had reached over to my grandfather's wheelchair and gently touched his hand. That was all it took to start my mother's tears flowing. After the wedding, Mom went over to my grandmother and told her how that tender gesture triggered her outburst. "Well, I'm sorry to ruin your moment," Grandmother replied, "but I was just checking to see if he was still alive."

What is Sarah Finkel's Condition??

A little lady called Mount Sinai Hospital. She said, "Hello, darling, I'd like to talk with the person who gives the information regarding your patients. But, I don't want to know if the patient is getting better, or doing like expected, or worse. I want to know all the information from top to bottom, from A to Y!"

The voice on the other end of the line said, "That's a very unusual request...What is the patient's name and room number?"

She said, "Yes, darling! I'd like to know the information about Sarah Finkel, in Room 302."

He said, "Finkel, Finkel. Let me see. Feinberg, Farber, Finkel. Oh, yes. Mrs. Finkel is doing very well. In fact, she's had two full meals, her blood pressure is fine, her blood work just came back as normal, she's going to be taken off the heart monitor in a couple of hours and if she continues this improvement, Dr. Cohen is going to send her home Tuesday at twelve o'clock."

The woman said, "Thank Goodness! That's wonderful! Oh, thank goodness! Her test came back normal, she's getting off the heart machine in a couple of hours you say. Oh! that's fantastic, darling! And she is being released tomorrow at twelve o'clock! I'm so happy to hear that! . . . That's wonderful news!" The man on the phone said, "From your enthusiasm, I take it you must be a close family member or a very close friend!"

She said, "What close family or friend? I'm Sarah Finkel in 302! Cohen my doctor tells me nothing."

A group of girlfriends are on vacation when they see a five-story hotel with a sign that reads: "For Women Only." Since they are without their boy-friends and husbands, they decide to go in.

The bouncer, a very attractive guy, explain to them how it works. "We have five floors. Go up floor by floor, and once you find what you are looking for, you can stay there. It's easy to decide since each floor has a sign telling you what's inside."

So they start going up, and on the first floor the sign reads: "All the men on this floor are short and plain." The friends laugh, and without hesitation move on to the next floor.

The sign on the second floor reads: "All the men here are short and handsome." Still, this isn't good enough, so the friends continue on up.

They reach the third floor and the sign reads: "All the men here are tall and plain."

They still want to do better, and so, knowing there are still two floors left, they kept going.

On the fourth floor, the sign is perfect: "All the men here are tall and handsome." The women get excited and are about to go in when they realize that there is still one floor left. Wondering what they are missing, they head up to the fifth floor.

There they find a sign that reads: "There are no men here. This floor was built only to prove that there is no way to please a woman."

Pass It Along

My husband, Michael, and I were at a restaurant with his boss, a rather stern older man. When Michael began a tale, which I was sure he had told before, I gave him a kick under the table. There was no response, so I gave him another poke. Still the story went on.

Suddenly he stopped, grinned and said, "Oh, but I've told you this one before, haven't I?"

We all chuckled and changed the subject. Later, on the dance floor, I asked my husband why it had taken him so long to get my message. "What do you mean?" he replied. "I cut the story off as soon as you kicked me." "But I kicked you twice and it still took you awhile to stop!"

Suddenly we realized what had happened. Sheepishly we returned to our table.

The boss smiled and said, "Don't worry. After the second one I figured it wasn't for me, so I passed it along!"

Lazyitus

The man told his doctor that he wasn't able to do all the things around the house that he used to do.

When the examination was complete, he said, "Now, Doc, I can take it. Tell me in plain English what is wrong with me."

"Well, in plain English," the doctor replied, "you're just lazy."

"OK," said the man.

"Now give me the medical term so I can tell my wife."

Computer Scratch

My husband and I are both in an Internet business, but he's the one who truly lives, eats, and breathes computers.

I finally realized how bad it had gotten when I was scratching his back one day.

"No, not there," he directed. "Scroll down."
